

NIABT Educational visit to Core Systems (NI) Ltd and Hydebank Young Offenders Centre

Core Systems (NI) Limited., Northern Ireland's most experienced biometric identity management company, will host an NIABT educational visit at its premises in Belfast on **Friday 27 April 2012**.

Members are advised to make their own way to the venue.

The visit will begin with a presentation on the work and background of the company and its experiences of working with the public sector.

Following the presentation, members will visit the Young Offenders Centre, Hydebank Wood for a tour of the site.

As well as having an opportunity to use the biometric system to gain access to the building, members will also visit one of the housing units to see how the electronic locking system works. Further stops on the visit will include the security office where the centralised control of locking and biometric access control systems are located and the Enhanced Housing Unit to see the prisoner secure messaging service that enables offenders to communicate with family and friends.

This educational visit is open to all NIABT Members, however please note that places are limited and will be made available on a "first come, first served" basis.

Date: Friday 27 April 2012

Time: 9.30am – 1.30pm

Venue: Core Systems (NI) Limited.
Glenbank, 720 Crumlin Road, Belfast.
