

Briefing on Access to Finance for local business by William McCulla, Invest NI Director of Corporate Finance

Our popular briefings cover a wide range of business related topics. They are normally held on the second Tuesday of every month and are hosted by prominent politicians and members of the local business community.

Invest NI have set up an Access to Finance portfolio of funds to help address the gap in available funding for businesses in Northern Ireland.

This presentation will explain the range of funds available, provide case studies, and show how these funds can help businesses at different stages of growth. The presentation will also talk about the new Finance Voucher which is available to SMEs that need help to develop a funding proposal to present to banks or other potential investors.

This presentation will benefit any organisation looking to access funding to develop their business.
